Re: Status of the Notice of Intention to Commence Small Mining Operations, Travertine #1 Project, S/023/042, Juab County, Utah

Dear Mr. Cox:

Thank you for forwarding the Notice of Intention to Commence Small Mining Operations for Western State Minerals, Travertine #1 Project, located in Section 14, T14S, R3W, Juab County, Utah. Your agency's designated number for this project is UTU-072860.

This letter is to inform you that the Division has evaluated the above mentioned Notice of Intent for completeness. We find the BLM notice is incomplete. Also this operation is the same operation as that operated by Western States Limestone Company, (Farrell Larson). The Division needs to have the enclosed transfer form (MR-TRS) completed by both parties and appropriately notarized before we can release Western States Limestone Company from responsibility of this site. As the BLM notice is incomplete, we have also enclosed a Small Mining Notice of Intention form (MR-SMO) which you may have the new operator complete and submit along with the transfer form. It is understood that your office, acting as "Lead Agency" will notify the operator accordingly.

We will suspend our review of Western State Minerals Travertine #1 project until the required information is received. Thank you for your assistance. Please reference our designated file number S/023/042 when forwarding additional information on this project to us.

Sincerely,

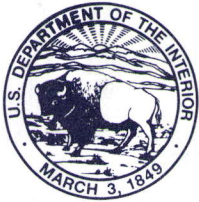

Tom Munson
Reclamation Hydrologist
